

*“ Computer Based **Interaction Analysis**
supporting participants
of technology mediated activities”*

Conclusion 2.0 “Prospects Part”

2nd Symposium, Berlin
December 4, 2007

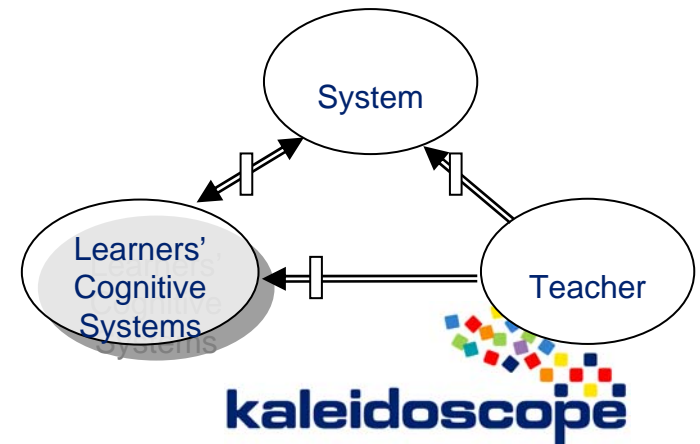

IA ⇒ Perspectives- Integrated view

Perspective:

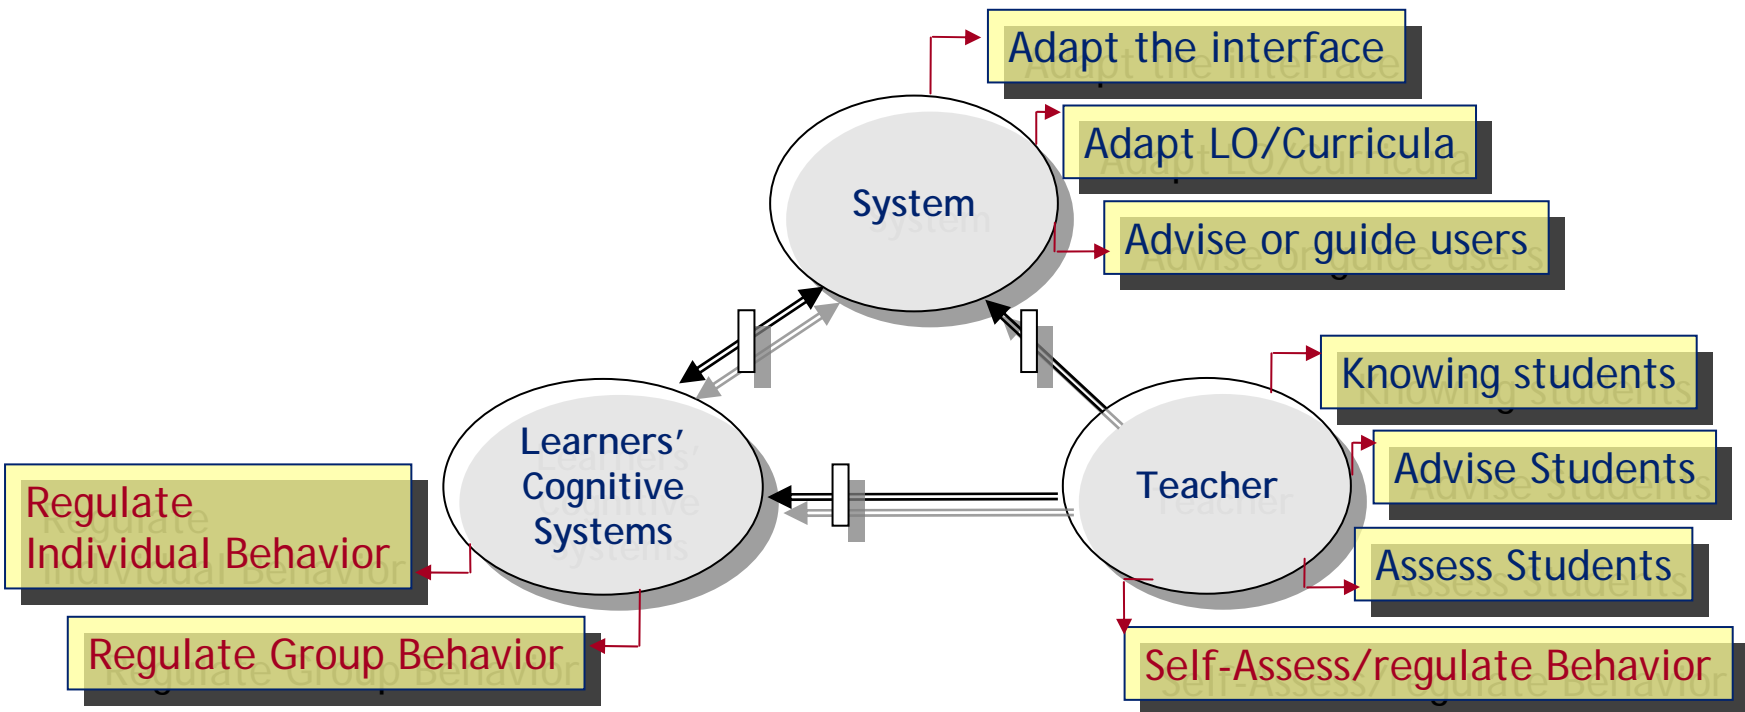

Explore the complementarities between the various approaches

- ◆ Create enriched and/or adapted interfaces
take into account IA tools outputs so as to adapt interface
(e.g. Reyes, 2005)
- ◆ Provide IA tools' outputs for selregulation
(e.g. 'Argunaut', 2007)
- ◆ Intelligent systems advising or guiding students or even teachers

IA ⇒ Perspectives- Integrated view

⊗ Perspective: Apply complementary approaches based on CS IA

*“ Computer Based **Interaction Analysis**
supporting participants
of technology mediated activities”*

*“ **Discussion Part**”*

2nd Symposium, Berlin
December 4, 2007

*" Computer Based **Interaction Analysis** supporting participants
of technology mediated activities"*

*" **Discussion Part** "*

I. Significance of the research field

***II. Related Aspects of your own work or
your interest***

***III. Perspectives on more profound research
aspects or on further integration***
